

Inter-Steel stock a comprehensive range of Chrome Moly white iron Chocky Bars.

Chocky Bars provide superior abrasion and impact protection in a range of Fixed & Mobile plant applications.

These products can provide up to 6 times the life of standard wear plate products and replace the time consuming and costly use of hard facing and clad plates.

The white iron material is bonded to a mild steel backing plate providing excellent weldability & Stability in the toughest of environments.

All of the Chocky bars supplied by Inter-Steel are notched for easy forming and cutting on site

Typical Applications:

- Earthmoving Buckets
- Excavators
- Chutes
- Recycling Equipment

Hardness:

Typical 700 HB (63 Rc)
